

IPBRICK.MAIL — IPBRICK

IPBRICK's Email and Collaborative Tools solution ensures **secure access** and effective management of your **email** account, as well as **contacts, calendars, tasks and notes**.

IPBRICK.MAIL provides email integrated with **collaborative tools**:

Schedule

Contacts

Calendar

Tasks

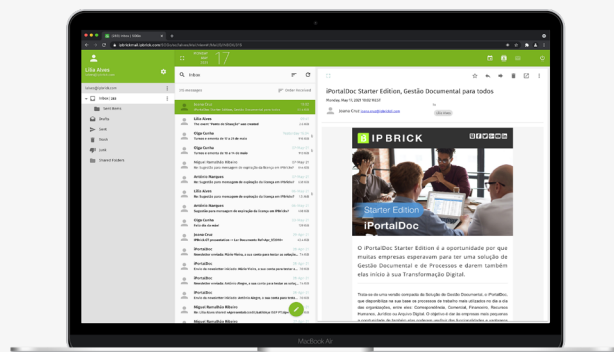

Notes

With **IPBRICK.MAIL** companies can continue to use their email applications, such as Outlook, Mozilla Thunderbird or a common browser, to send and receive emails, as well as to access personal and shared calendars.

Mobility has not been forgotten. The solution integrates with mobile devices and tablets using the EAS – Exchange ActiveSync protocol, so you can access **IPBRICK.MAIL** through your smartphone or tablet, anytime and anywhere.

IPBRICK's email service is managed via a web interface, which makes system administration simpler and easier to execute. It works with the LDAP protocol and integrates with Active Directory, inheriting all account settings.

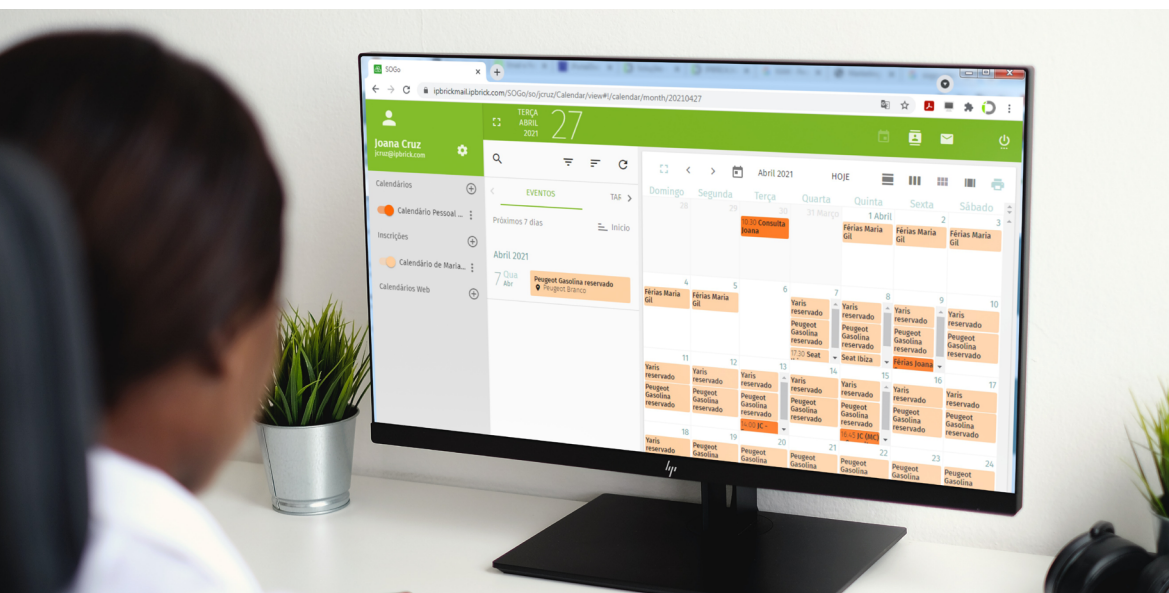

IPBRICK's **Email and Collaborative Tools** solution ensures secure access and effective email account management.
